a let's go and focus didn't focus I'm turning over the thing again now so after I've didn't have to focus what am i doing this is actually calm I saw the suggestion a few times so whoever suggested this who said it degree a friendship opinion I don't know quite all my friends do apprenticeships and they're all most of them want to go Union one of them's not it's it's intense I think it just all depends isn't it I should I be that guy 148 Wow do I really look like that fair enough then should I donate to myself ok no no that's just this is just weird maybe I should Jack Edwards maybe I need some tips no ok ok bad distraction I'm so distracted killed instrumentals this is what we need I can only listen to instrument in I can only listen to instrumentals when I'm revising jazz jazz is actually decent for a rising why did I get excited oh here's this guy bow he start his own business calm I've seen this advert too many times man he needs to chill duck song listen to music or foreign lyrics that's true I've got killed killed cow up now grand jazz that's the type of music that's the genre wintered okay let me go back to my plan let me go back I can turn over my phone again I actually quite liked jazz but I don't know what was like good good jazz to listen to you okay let me think we're still going from is it half eight how long I've been doing this block an hour almost this is poor I don't know what the average out this workout is friendless okay so really yes relation since 1 is less than I know since Y is less than yn he must be greater than P so expectations were greater than P caps [Music] if using in order to back in order to how'd I say got in order to in order to return to the natural level of output ie therefore decrease keep decreasing until markups telephones will keep decreasing the mark-up said my firm's will keep decreasing until until it is in line with price expectations once this point is reached once this points it once this point is reached what we have we will have output will be back at the natural level level I need some goodies chocolate chocolate that was kind of ok ok so that's that second paragraph draft it down the S curve will shift until we arrive back at yn oh yeah so ok i realistically need diagram now I'm gonna have to add in diagrams because this it's hard to like I need to find the right diagrams or Google Images that takes a bit of time to fair let me look at the chat again oh it's upside down oh my god who's that guy in the mask at your window ah that was their band um I don't think I missed anything too important in the chat let's scroll down to the latest comments will be saying Kieran window see my dad would probably come in that window just to try and be funny I can't lie vlog a date with papa rationally if I donate 20 pounds yeah definitely we get Bo just I'll try and get a Skype feature with pepper Ashley Jacob Molly lives another day welcome lads yeah deep why Ferrari by Frank Ocean atrocity Savannah Rachel hello hello Rachel listen to xxx intro and my FT plug walk are you mad - I plug walk that song is polite when they would when you're with your boy just getting pumped up for something I don't know stop video kebab song this is this is chilled chilled stuff remove kebab and 20 pound out my overdraft you lucky thing yeah hahaha y'all didn't in Australia TV they watch rugby every day are you saying we aren't important take a low low beta the pool if you see the diagram it's probably easy to write about yeah it's true diagrams are definitely easy to write it helps me write paragraphs of diagrams I should probably do that I feel good I go get some did you do work experience yeah I worked at work experience at Bank of America and got a job in Tesco and done something else if I don't need 50-pound can you put I love Paul macaroni somewhere yes yeah yeah ash so many donated 20 pounds today Ashley I think I missed it that's actually true I missed that as well let me know in the chat um wait does this count as revision for me even though yeah basically I'm just this is this is a revision for all of us I live in

york's would be nice okay the aggregate supply curve will keep shifting left until with alarm
alarm wake up nod race not with the I don't even know if this this is actually horrendous s it over
no this make any sense but yeah good old spellcheck that's what we like to see okay that was
not napped I actually feel not that is they're not delete button on a Mac like I have a new Mac I
always wondered this over yeah okay that makes more sense to be fair okay okay what Mac
boot they have the new MacBook with the touch bar forty three weeks I have forty nine pounds
spent in a week I'm going chef would you near h 'l that's nice you know chef was good to be fair
it's good time when I win you kebab someone get played actually and well 100 pound donation
of a parameter yeah you know Dylan moisture body kind of your cross there's some things you
don't sound streams and that is something you just don't stream actually one-pound thank you I
feel touched again I honestly feel touched again what's the barber saying in your also leaning
stuff yeah barbers you know what they're calm they're calm then use a trade union obviously
Caleb yeah could do how many words of USA 1000 to 1500 so we're approaching halfway I saw
your video on an accommodation I'm standing in a nicer place yeah share food accommodation
that was like when my friends stayed is he was horrendous let's find a diagram a das what is the
kebab song played a kebab song are there all koalas what the price is like in York yeah prices
are standard to be fair not as expensive as London but probably not as cheap as some places
it's kind of touristy like when I walk around the town there's a few um few of them guys on like
the floating Yoda's and a few street performers oh this is why one this is basically why one so
we've got ad shifting down but it's not labeled but this one oh but we had a bit of a nightmare
getting this in them we call mark rash is so focused on studying instead of yeah live-streaming I
should indeed I should indeed so what's I can't lie my head obviously didn't actually do some
work what kind of maths you do in first year actually I basically are basically Khalid what we say
and maths in first year a lot of stats a lot of probability and there's actually a mass multiply
matrices chebyshev's inequality the statistics and probability is ridiculously hard for an
economics degree you graphs yeah trust me comley's I've already been leads I made a vlog on
the leads kebab song well they're always this come up song but if I type ink about some will it
just come up that's the distraction that's maybe then maybe then we'll strike all this saved in
here yeah and so let me insert this insert picture oh I can size it from browser I only said I think I
have quite a few personal documents like like filly boys going on here I don't I'm exposing all my
personal memories after the diagrams later another basically I have slight identification on my
thing for I've been applied to stuff to do a study abroad so I don't know like leak my National
Insurance number and then next thing you know I'm glad you like duplicated passports and
thumbs before dinos yeah I will sort out that later on Dylan is such a Normie is funny I'd even
know a Normie is any Google it mean an average joke thank you very much thank you no too
fair I am a fairly average Joe in terms of academia I can't lie what Caleb you can't be asking me
that sort of stuff you know I mean Xiaomi Shami kabab song please play it go to Sydney villain
you deserve it I'm hum trying I'm trying you can just drag diagrams from what was on before
nothing that's mad died so mad you actually can righty-o we're in business we're in business
what was that diagram her before I listed this is it here oh this is it this is the one I need and was
the first one I needed what's the first one needed I don't need one first one okay let's shift this
down here my cousins are doing shoe job my cousins are doing economics degrees and both
hate them is it worth doing for the good money later - - I'm only at uni for the experience like

my degree is second priority to be honest and the degree is hard it's quite interested in a wheelie one of the most useful degrees but um yes calm how was universe with Natyam yeah yeah I have heard good things about it to be fair oh I so much easier to handle diagrams I've actually missed a song I like palace and I like Middlesbrough Jack II what's this kebab somewhat like let's see the song okay this this is interesting yeah this nice advise I need to write comment this imagine if I fell don't get to Sydney because I was watching a kebab song how would that make everyone feel good let's get back to it let's get back to it um have I ever had my stomach pumped no but I know loads of people as aunty they call their stomachs pumped how's University of Glasgow haven't been taking the content removed come home go on a rave dillinger bro yeah I've been invited but I've never really I'm not that rave type of guy like Crees least you still have half a year that's a good excuse if you didn't get into York I went Akhil here were University how was University of Edinburgh apprenticeship at a levels a levels a levels and then go into apprenticeship you have to after I I do you handle deadlines yeah yeah deadlines don't really matter so what's a lot of stuff at uni they say oh you have to do this you have to do that economics is such a big course for me that you don't really hey guys I'm getting tired I know no less firm a few more minutes of this and then okay mmm okay now I've just lost all focus this was kind of a good idea but a bad idea at the same time I don't think I could type an [essay on project management](#) while replying to the chat and stuff like that let me just actually focus I'm gonna now I'm gonna leave the chat for like five four minutes and I should do some focusing I will foot with no music for a minute no music the aggregate supply curve will keep shifting out until the intersection with a lower level of aggregate demand 82 okay therefore over the time the mark-up set by firms will decrease until it's in line with the price until it's in line with price expectations once this point is reached I'll put me back at the next rule 11 this is as the aggregate supply curve will keep sending out tools outward until Oh until I go get supply whoa aggregate supply ships outwards relation and aspect markup markup decreasing was that
